No. 101 BLUNT PICK HAMMER

Drop Forged

Ball end for raising. 1 5/8" Dia. Flat Face; 3 3/4" Pick. 1 lb.

No. 104 SHORT FINISHING HAMMER

Drop Forged

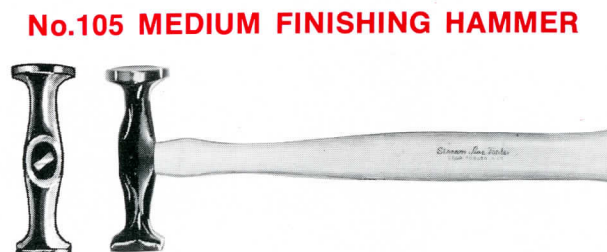

Light short standard type finishing for certain close type work. Flat Faces, Dia.: Sq. 7/8", Round 1-3/16". Clearance, 15/16" Face to handle. 11 oz.

No. 102 SHARP PICK HAMMER

Drop Forged

Well balanced. The pick is used to bring up "specks". Saves filling with body metal. 1 3/4" Dia. Flat Face—3 3/4" Pick. 1 lb.

No. 105 MEDIUM FINISHING HAMMER

Drop Forged

The old original type bumping hammer. Well balanced. Round Face 1 1/2"; Square Face 1 1/4". 15 ozs.

No. 103 LONG STRAIGHT PICK HAMMER

Drop Forged

This is used for same purpose as 102 only gives better clearance for new model streamlined cars. 1 3/4" Dia. Flat Face—5 1/2" Pick. 1 lb. 2 ozs.

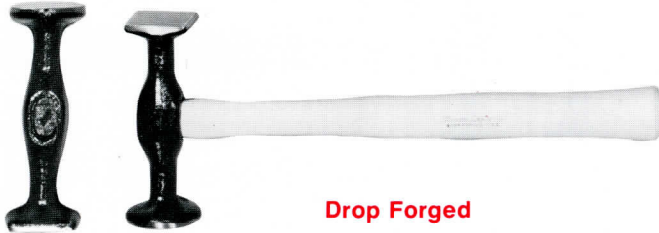

No. 106 HEAVY FINISHING HAMMER

Drop Forged

Standard sturdy built panel hammer for general purpose work. Flat faces, Dia.: Square 1 1/2"; Round 1 5/8". 1 lb. 4 ozs.

Stream Line Tools, Inc.

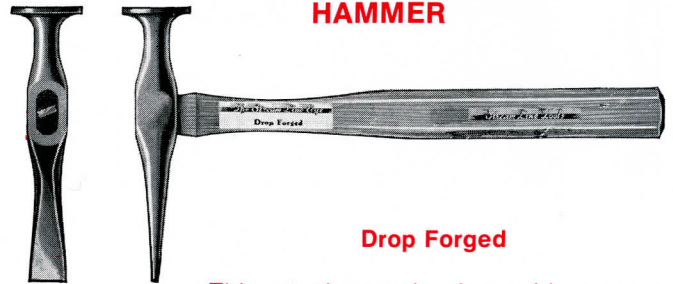

No. 107 LIGHT FINISHING HAMMER

Drop Forged

This wide face hammer has extra thin faces, otherwise same as 106. Flat faces, Dia.: Square 1½". Round 1⅝". 1 lb. 2 ozs.

No. 111 CHISEL & FINISHING HAMMER

Drop Forged

This popular number is used in narrow fender beads and corners. Cross Chisel 3" long. Flat Face Dia.: 1½". 14 ozs.

No. 108 ROUGHING OUT HAMMER

Drop Forged

Sometimes called the "goose neck". Heavy enough to raise tough sturdy fender dents. Also can be used as a "setting" hammer and used on frame work. Every shop needs one. 6¾" "Neck". 3 lbs. 8 ozs.

No. 112 PICK & FINISHING HAMMER

Drop Forged

The most popular weight and size for general use. It has the straight pick and is sturdy built with flat face. Pick 2¾" long, Flat Face, Dia.: 1½". 1 lb.

No. 110 CURVED PICK & CHISEL HAMMER

Drop and Hand Forged

Much time is saved using in roof rails, trunk lids, behind body posts and under fender braces; a very popular item. 4¾" Curved pick; 4¾" Curved Chisel. 14 ozs.

No. 113 CAULKING HAMMER

Drop and Hand Forged

Flat Face 1½"; Chisel 3" long. 1 lb.

DISCONTINUED

Stream Line Tools, Inc.

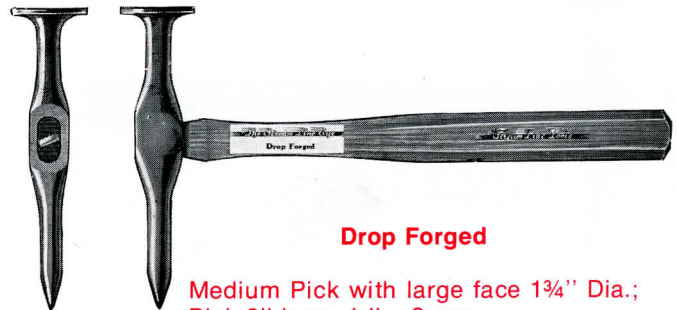

No. 114 CURVED CHISEL & FINISHING HAMMER

Drop Forged

The well balanced curved chisel enables one to get into close places. The flat face is perfect for finishing. Flat face, Dia.: 1½", Chisel 2¾" long. 14 ozs.

No. 123 PICK HAMMER

Drop Forged

Medium Pick with large face 1¾" Dia.; Pick 3" long. 1 lb., 2 ozs.

No. 121 FLAT FACE DING HAMMER

Drop Forged

Styled after the original "Ding" hammer but is better balanced than most. Longer pole on the small face side enables one to get better clearance when using in deep places. Small Round Flat Face, 1¼" Dia.; Large Round Flat Face, 1¾" Dia., 1 lb., 4 ozs.

No. 124 BEADING HAMMER

Drop Forged

Oval Face, Dia.; 1¾"; Beading Chisel, 3½". 1 lb.

No. 122 OVAL FACE DING HAMMER

Drop Forged

Same as 121 only the oval on small face is for use in oval places and under side of crowns. Small round "oval" face, 1¼" Dia.; Large Round Flat Face 1¾" Dia. 1 lb., 4 ozs.

No. 125 CHISEL HAMMER

Drop Forged

Flat Face 1¾ Dia. Chisel 3½". 1 lb.

No. 126 MEDIUM CHISEL HAMMER

Drop and Hand Forged

Flat Round Face $1\frac{3}{8}$ " Dia. Chisel $3\frac{1}{2}$ ", 14 ozs.

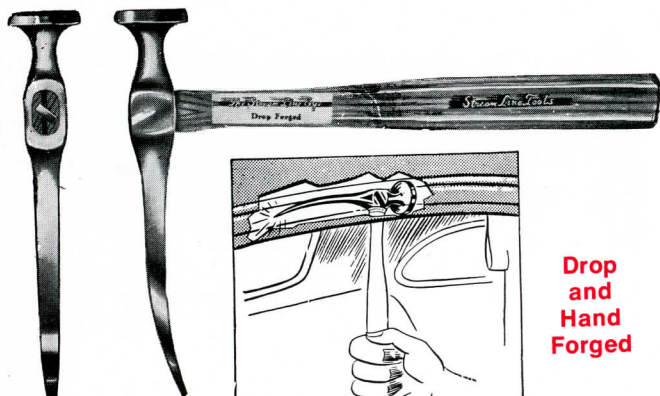

No. 130 MEDIUM LONG CURVED HAMMER

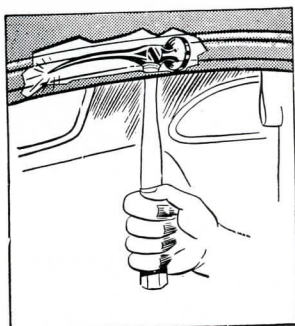

Drop Forged

Flat Round Face $1\frac{3}{8}$ "; Curved Pick $4\frac{3}{4}$ ".
1 lb.

No. 128 LONG CURVED CHISEL HAMMER

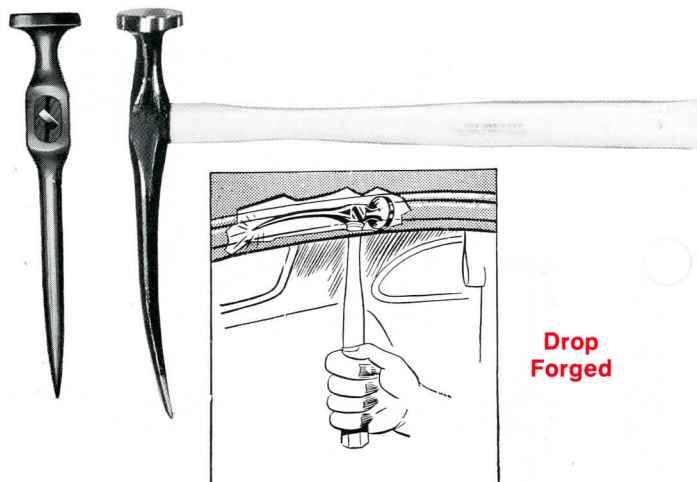

Drop and Hand Forged

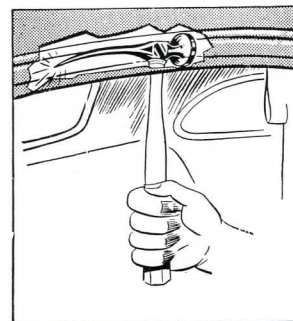

The extra long curved chisel can be used in close quarters, such as roof rails, etc. Flat round Face, $1\frac{3}{8}$ ". Curved Chisel, $5\frac{3}{8}$ ". 1 lb.

No. 131 LONG CURVED PICK HAMMER

Drop Forged

A long curved pick used inside trunks, skirts, roof rails. This pick takes the place of other picks that are too short. Flat Round Face, $1\frac{3}{8}$ "; Curved Pick, $5\frac{3}{4}$ ". 1 lb.

No. 129 SLIGHT CURVED PICK AND FINISHING HAMMER

Drop Forged

Flat Round Face, $1\frac{1}{2}$ " Dia.; Curved Pick $2\frac{3}{4}$ " long. 1 lb.

No. 132 HAMMER

Drop Forged

A small hammer weighing only 5 oz. with 20" handle designed for close work on deep fenders and doors. One end has a sharp pick, the other is blunt for any work you have. This hammer is designed to put you closer to your work and the result is a better job with less fatigue for you.

No. 134 BLUNT BEADING HAMMER

Drop Forged

Flat round face 1 5/8" Dia. Beading Chisel 3 3/4" long. 1 lb., 2 ozs.

No. 135 THIN BEADING HAMMER

Drop and Hand Forged

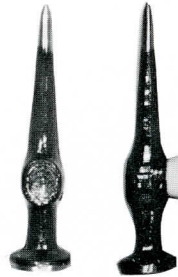

Flat Round Face, 1 5/8" Dia.; Thin Chisel 3 3/4" long. 1 lb., 2 ozs.

No. 137 BLUNT POINT FINISHING HAMMER

Drop Forged

This blunt pick is selected by most beginners as it won't pick holes in the metal. Also some "old timers" still use the blunt pick. Flat Round Face, 1 1/2" Dia. Blunt End, 3" long. 1 lb.

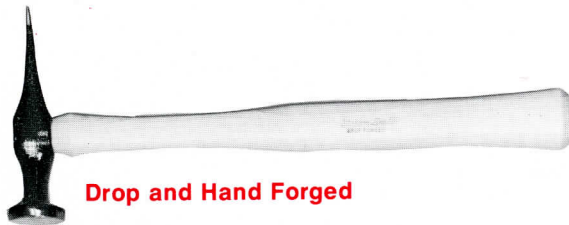

No. 142 TURRET TOP PICK HAMMER

Drop Forged

The turret top feather weight hammer makes a very good general purpose pick for tops and deep skirted fenders and hoods. Pick, 3" long. Round Flat Face, 1-3/16" Dia. 19 1/2 handle, good "reach". 12 ozs.

No. 143 LIGHT CHISEL HAMMER

Drop and Hand Forged

Flat Face, 1-3/16"; Chisel 2 1/4". Clearance, 1 1/4". Face to Handle. 7 ozs.

No. 146 CURVED PICK LIGHT FINISHING HAMMER

Drop Forged

Flat Rd. Face, 1-3/16" Dia. Curved Pick, Length, 3". 10 ozs.

No. 144 SHARP PICK FINISHING HAMMER

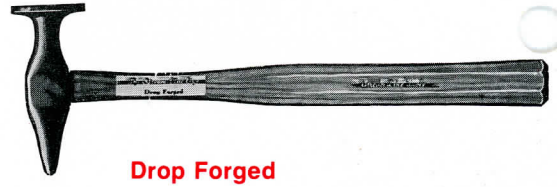

Drop Forged

Same as 147 only the sharp point for extra fine picking. Flat Round Face, 1-3/16" Dia.; Sharp Pick, 1-7/16" long. Hand clearance 1 1/4". 9 ozs.

No. 147 BLUNT PICK FINISHING HAMMER

Drop Forged

Very useful where short light stroke is necessary. Flat Round face, 1-3/16" Dia.; Blunt End, 1-7/16" Long. Hand Clearance 1 1/4". 9 ozs.

Stream Line Tools, Inc.

**No. 152 STRAIGHT & CROSS
CHISEL HAMMER**

Drop and Hand Forged

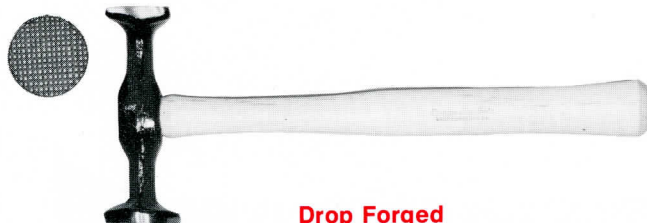

Body man's cross chisel or Welder's Chipping hammer. Chisel each end 3" long. Wt. 14 ozs.

**No. 160 LIGHT WT.
FINISHING HAMMER**

Drop Forged

This is one of the best and lightest finishing hammers usually selected as a "must" in every tool kit. Flat round Face, 1 3/16 Dia., Pick 3" long. 10 ozs.

***No. 158 STANDARD
SHRINKING HAMMER**

Drop Forged

This grooved face is selected by most body men as a fast finishing hammer and if correctly used will not stretch the metal. Flat Faces, Dia.; Sq. 1 5/8", Rd. 1 3/4". Only round face corrugated. 1 lb., 4 ozs.

***No. 164 CHISEL AND
SHRINKING HAMMER**

Drop Forged

This cross chisel corrugated face hammer can be used in place of several other hammers. Flat Round Face, 1 1/2" Dia.; Chisel, 3". 14 ozs.

***No. 159 LIGHT WEIGHT
SHRINKING HAMMER**

Drop Forged

Same as 158 only much lighter. Flat Faces, Dia.: Sq. 1"; Rd. 1 1/4". Only round face corrugated. 11 ozs.

*The Cross Grooved Face eliminates considerable metal stretching when used without heat and is popularly known as the "shrinking hammer."

**No. 165 OFFSET PICK
HAMMER**

Drop Forged

The pick hammer every body man needs. Can be used in places that no other pick will reach. 4 1/2" Curved Picks. 14 ozs.

Stream Line Tools, Inc.

No. 166 DOUBLE CURVED FACE HAMMER

Drop Forged

This double oval face hammer is very useful in all oval and concaved places on all new and old model cars. Also short stroke bumping hammer. Square Face oval runs with handle. Round Face Oval runs crosswise. 1 lb., 2 ozs.

No. 252 FLANGE TOOL

(Rubber protection pad vulcanized to steel). This is an item that is most useful in all shops for aligning fenders bumper brackets, etc. 5 lbs.

No. 167 LIGHT WEIGHT DOUBLE CURVED FACE HAMMER

Drop Forged

Same as 166 only much smaller faces for all small curves, some of which are found on most all cars. Square Face oval runs with handle. Round Face oval runs crosswise. Also short stroke bumping hammer. 10 ozs.

No. 260 BUMPER BRACKET TOOL

The strongest bumper bracket tool on the market. The jaws are made of 1/2" steel. Pipe lengths are fitted over handle to give tremendous leverage. The 1/2" flange fits all brackets and can be used up and down as well as sideways. 4 1/2 lbs.

No. 173 HAMMER

Drop Forged

The large 1 3/4" face of this hammer covers a lot of surface and speeds your work. Its short 4 1/4" body lets you get into tight places other hammers can't reach. The weight reduces arm and wrist fatigue. 10 ozs.
